

**Sleepy Eye Park Board Minutes
September 9, 2019
City Garage**

**Attending Greg T., Pat S., Steve L., Diane E., Nicole K., and Joann S.
Absent Randy Z.**

Reservation system update: Joann and Steve have been unable to connect with local representative for an online reservation system we are considering to purchase. They will continue to contact representative and move on to another provider as needed.

Year-end pool numbers and updates: Numbers reviewed for 2019. No concerns. Pool repairs are being made. Steve presented an option for lily pad area repair, as it is a high cost to replace its parts. He will discuss with pool manager for her ideas. Steve is researching painting companies, as this is also a needed repair for the slides.

Sportsmen Park update: Electrical bids have been given to Sleepy Eye Electric with the addition of another electrical box. Roadwork will begin by late September.

Baseball irrigation pit sump pump: Discussion for some improvement was discussed with city manager and departments involved. Things will remain the same.

Summer help: Two 2019 summer employees will be returning next summer at this point. Amanda, who manages campground cleaning details and reservations, has been hired to work other hours for the city.

Other: Shutting down pool has been completed. Spraying for broadleaf in all parks is completed. Painting needs are being addressed. Maintenance of tennis courts is ongoing need during high school tennis season.

Dog Park: This group will meet with city council tomorrow night for discussion for further progress.

Next meeting: October 7, 2019 at 6 PM, location TBD
